Application	B8/15 & 9/15
Location	Part Lot 9, Concession 1 TOWNSHIP OF CENTRE WELLINGTON
Applicant/Owner	GRE- Canada, LLC

PLANNING OPINION: The applications would sever two vacant 0.415 ha (1 ac) industrial lots in the Urban centre of Fergus. A vacant 1.08 ha (2.6 ac) industrial lot would be retained.

This application is consistent with Provincial Policy and would generally conform to the Official Plan. We would have no concerns, provided that servicing and safe driveway access can be provided to the satisfaction of the local Municipality.

PLACES TO GROW: The Places to Grow policies place an emphasis on intensification and optimizing the use of existing land supplies. Under section 2.2.2.1 which deals with managing growth it states, "population and employment growth will be accommodated by focusing intensification in intensification areas". Intensification is defined as "the development of a property, site or area at a higher density than currently exists through,.....b) the development of vacant and/or underutilized lots within previously developed areas; or c) infill development".

PROVINCIAL POLICY STATEMENT (PPS): Section 1.1.3 of the Provincial Policy Statement directs growth and development to occur within settlement areas. The proposed lot creation is located within the Fergus Urban Centre and is consistent with the PPS which encourages development in areas with existing servicing and infrastructure

WELLINGTON COUNTY OFFICIAL PLAN: The Subject Property is Designated URBAN CENTRE and is located in the Urban Centre of Fergus.

Section 10.6.2, states that new lots may be created in Urban Centres provided that the lands are appropriately zoned. Lots may be created for a variety of community uses subject to the policies of this plan. Lot creation will normally proceed by plan of subdivision and will be based on the provisions of full urban services, wherever such services are available. We are satisfied that a plan of subdivision is not necessary for the creation the proposed lots.

The matters under Section 10.1.3 were also considered including... b) "that all lots can be adequately serviced with water, sewage disposal.....to accepted municipal standards" and d) "that all lots will have safe driveway access to an all-season maintained public road..." and m) that all new lots have logical lot lines given the existing lot patterns in the area, Natural and human –made features and other appropriate considerations".

Regarding item m) the application has indicated that the narrow strip of land that is to be maintained at the rear of the severed parcels is to allow space for storage for the proposed use which is to be carried out on the retained lands.

LOCAL OFFICIAL PLAN: The subject property is designated Industrial in the local Official plan.

LOCAL ZONING BY-LAW: The subject property is zoned General Industrial (M2).

SITE VISIT INFORMATION: The subject property was visited and photographed on February 6th, 2015. Notice Cards were posted and the survey sketch appears to meet the application requirements.
