INTER-OFFICE MEMO

TO: Committee of the Whole

FROM: William Elliott

DATE: August 30, 2017

SUBJECT: “Pickle Ball” and potential P3 opportunity

ELNOS was approached by a business developer from South Carolina who has been working with a local business with an unrelated project. The developer, Scott Elliott, is a former Elliot Laker and is currently working with an investor (Steve Kuhn) on developing Pickle Ball centres in the United States.

Pickle Ball has been around for a long time but has shown tremendous growth in the last few years. The attached PowerPoint will give you the basics of the sport, and there was a recent story on MCTV covering pickle ball in the Soo.

<http://northernontario.ctvnews.ca/video?clipId=1173423&binId=1.1142313&playlistPageNum=1>

Elliott/Kuhn were originally interested in a stand-alone model similar to what has been developed in Kansas City <http://www.chickennpickle.com/> but were open to a ‘value added’ venture in conjunction with the City’s multiplex project.

There have been some initial discussion and consideration of running the project as Private Public Partnership (P3), a relatively new concept for developing large municipal infrastructure projects. P3 projects can take the form of:

- **Operation & Maintenance Contract (O & M):** A private operator, under contract, operates a publicly-owned asset (e.g. water/wastewater treatment plant) for a specified term. Ownership of the asset remains with the public entity.
- **Build-Finance:** The private sector constructs an asset and finances the capital cost only during the construction period.
- **Design-Build-Finance-Maintain (DBFM):** The private sector designs, builds and finances an asset and provides hard facility management (hard fm) or maintenance services under a long-term agreement.

P3 projects are designed to utilize the expertise of the private sector in building and maintaining infrastructure, while allowing municipalities to provide needed services in a cost effective and predictable manner.

.../2

Based on some preliminary analysis it was suggested that – using construction figures of \$36m for the base multiplex and \$4m for the pickle ball addition – the options would be:

Option 1:

- Land
 - Serviced land provided by City of Elliot Lake
- Construction/Build Cost
 - Investment by US Partners - \$40 Million
- Financing
 - \$4 Million non-repayable investment in Pickleball Construction from US Partners
 - \$36 Million repayable by City of Elliot Lake to US Partners through balloon payments from Federal and Provincial funding with the remainder through payment on terms
- Potential Timeline
 - Proceed with due diligence/project development while concurrently lobbying and securing funding from the Provincial and Federal government

Option 2:

- Land
 - Serviced land provided by the City of Elliot Lake
- Construction/Build Cost
 - Investment by Provincial and Federal Government and City of Elliot Lake
 - Maximum funding potentially available 40% Feds, 33% Province, 27% City
 - US Partners to provide City contribution – approximately \$9.72 Million(based on \$36 Million) if maximum funding received
- Financing
 - \$4 Million non-repayable investment in Pickleball Construction from US partners
 - \$9.72 Million repayable by City of Elliot Lake to US partners through payment on terms
- Potential Timeline
 - Lobby Provincial and Federal government to secure funding
 - Proceed with due diligence/project development once funding secured

While there exists a high degree of uncertainty related to the potential contribution of the Federal and Provincial governments, the overall project is likely fixed, with only the financing package to be determined. The potential US investors would like to move quickly, and are looking for a simple outline from the City as to what they would be expected to do (finance 100%? finance just the pickle ball portion? etc.) and how their return on investment would be structured (balloon payments? Amortization period? Revenue sharing? etc.)

The reality is the project is already moving much slower than the 'speed of business', so if the City is interested in pursuing the multiplex option it will be necessary to commit some time and resources to this aspect of the project.

The
PICKLEBALL
PHENOMENON

If you pick up a paddle and step on the court,

**THERE IS A VERY REAL CHANCE
THAT PICKLEBALL WILL HAVE A
POSITIVE AND MATERIAL IMPACT
ON THE QUALITY OF YOUR LIFE.**

EXECUTIVE SUMMARY

- Pickleball is a game similar to tennis that is played on a court one-third the size, with a net 34 inches high, where the players use a paddle and a polymer ball that resembles a Wiffle ball
- Pickleball is one of the fastest growing sports in the United States
- Pickleball is accessible to all demographics, and is one of the only sports that is truly ageless (A 70 year old can legitimately compete with a 20 year old)
- The fact that the sport is not intimidating, low impact, easy to pick up, and ridiculously addictive, Pickleball is having an unprecedented impact on health across the United States
- Communities benefit from the increased density offered by the smaller court size, the inclusive nature of the sport, the low barriers to entry, and the low cost and durability of the equipment
- There is the very real chance it may become an Olympic sport

A person is seen from behind, standing on a pickleball court. They are wearing a dark t-shirt and dark pants. In the background, another person is playing pickleball. The court is surrounded by a chain-link fence, and the scene is lit by the warm, low light of a sunset or sunrise.

ONE LAZY SUNDAY EVENING I MET
SUNIL VALAVALKAR WHO, ALONG WITH
HIS TEAM, GAVE ME A DEMONSTRATION
OF AN UNKNOWN GAME CALLED
PICKLEBALL.

**AT THAT TIME I DIDN'T
KNOW THAT MY LIFE
WOULD CHANGE SO
DRASTICALLY BECAUSE
OF THAT SUNDAY.** NOT ONLY
HAS MY MENTAL AGILITY
INCREASED, BUT MY PHYSICAL
ABILITY IS AT AN ALL-TIME HIGH.

MANISH RAO

ORIGIN

Pickleball has always been a game of simple rules, basic equipment and minimal space.

The very first game was played in 1965 by Joel Pritchard, a congressman from Washington state, and Bill Bell, a successful businessman, at Pritchard's home on Bainbridge Island, WA (near Seattle). Having access to an abandoned badminton court, but lacking badminton equipment, Mr. Pritchard and Mr. Bell started playing with ping-pong paddles and a perforated plastic ball. The net was eventually lowered to 36 inches (two inches higher than the standard today.)

The following weekend, Barney McCallum was introduced to the game at Pritchard's home. Soon, the three men created rules, keeping in mind the original purpose, which was to design a game that the whole family could play together.

It is said that the name was derived when Joan Pritchard (Joel Pritchard's wife) commented, "It reminded me of the Pickle Boat in crew where oarsmen were chosen from the leftovers of other boats." There is a rumor that the name came from the Pritchard's family dog Pickles, however, according to Mr. Pritchard, Pickles didn't arrive on scene until two years after the game was invented.

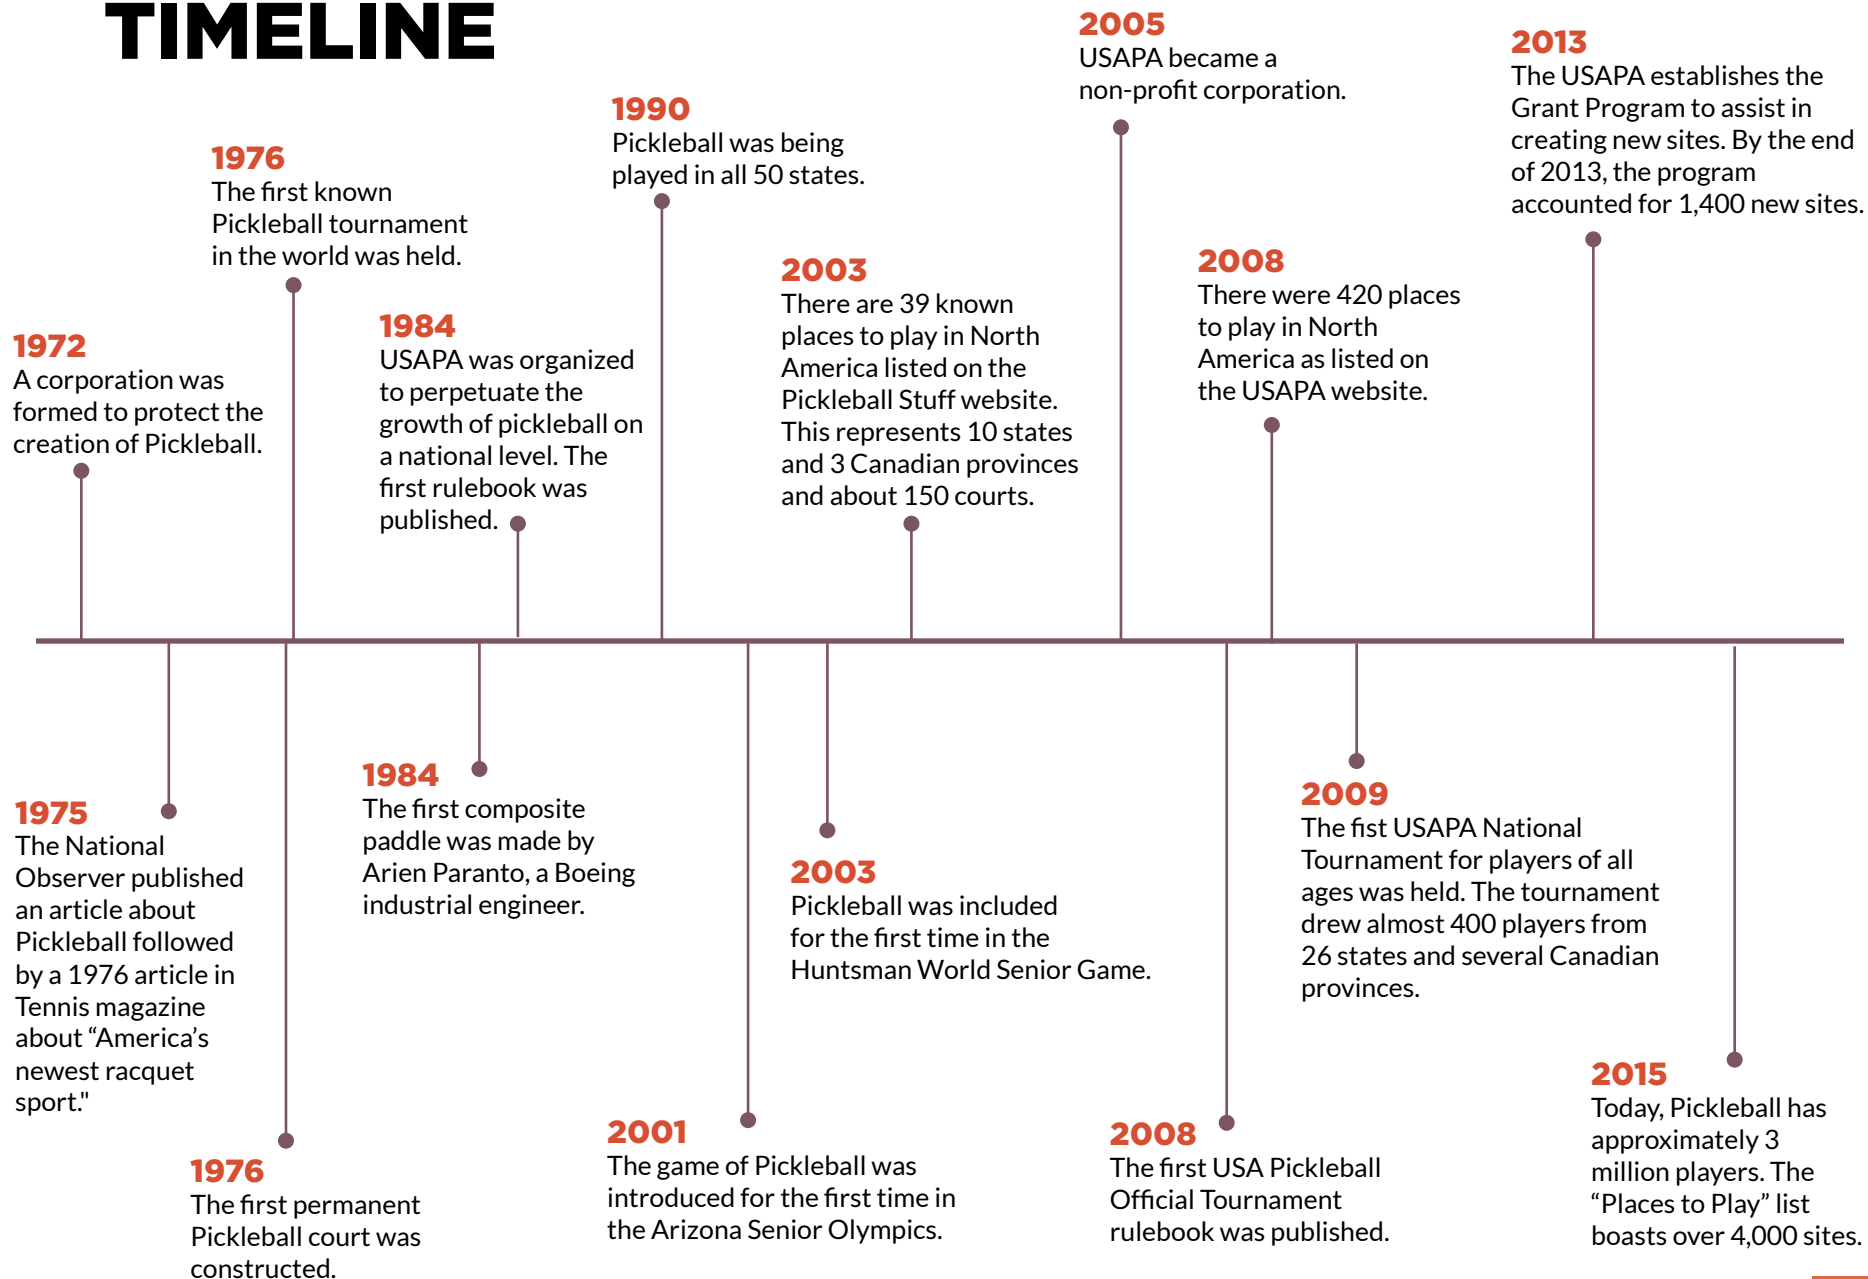

FIRST PICKLEBALL COURT

on Bainbridge Island, WA

TIMELINE

ADOPTION

The Sports & Fitness Industry Association (SFIA) 2016 Pickleball Participant Report shows that of the 2.5 million players:

- 1.57 million were “Casual” participants who play 1-7 times a year
- 930 thousand were “Core” participants who play 8 or more times a year

In addition to the United States, Pickleball is played in Canada, Mexico, Netherlands, India, England, Australia, China, Spain, France, Singapore, Aruba, Czech Republic, the United Kingdom, and Japan.

Type of Participant

New and more diverse groups of people are trying the sport (and this supports all multi-use facilities)

Core Players

Casual Players

Pickleball is not a sport relegated to the elderly. A young and diverse demographic of people is quickly adopting the game as their own.

**THIS IS THE CATALYST THAT
IS DRIVING PICKLEBALL INTO
THE SPOTLIGHT.**

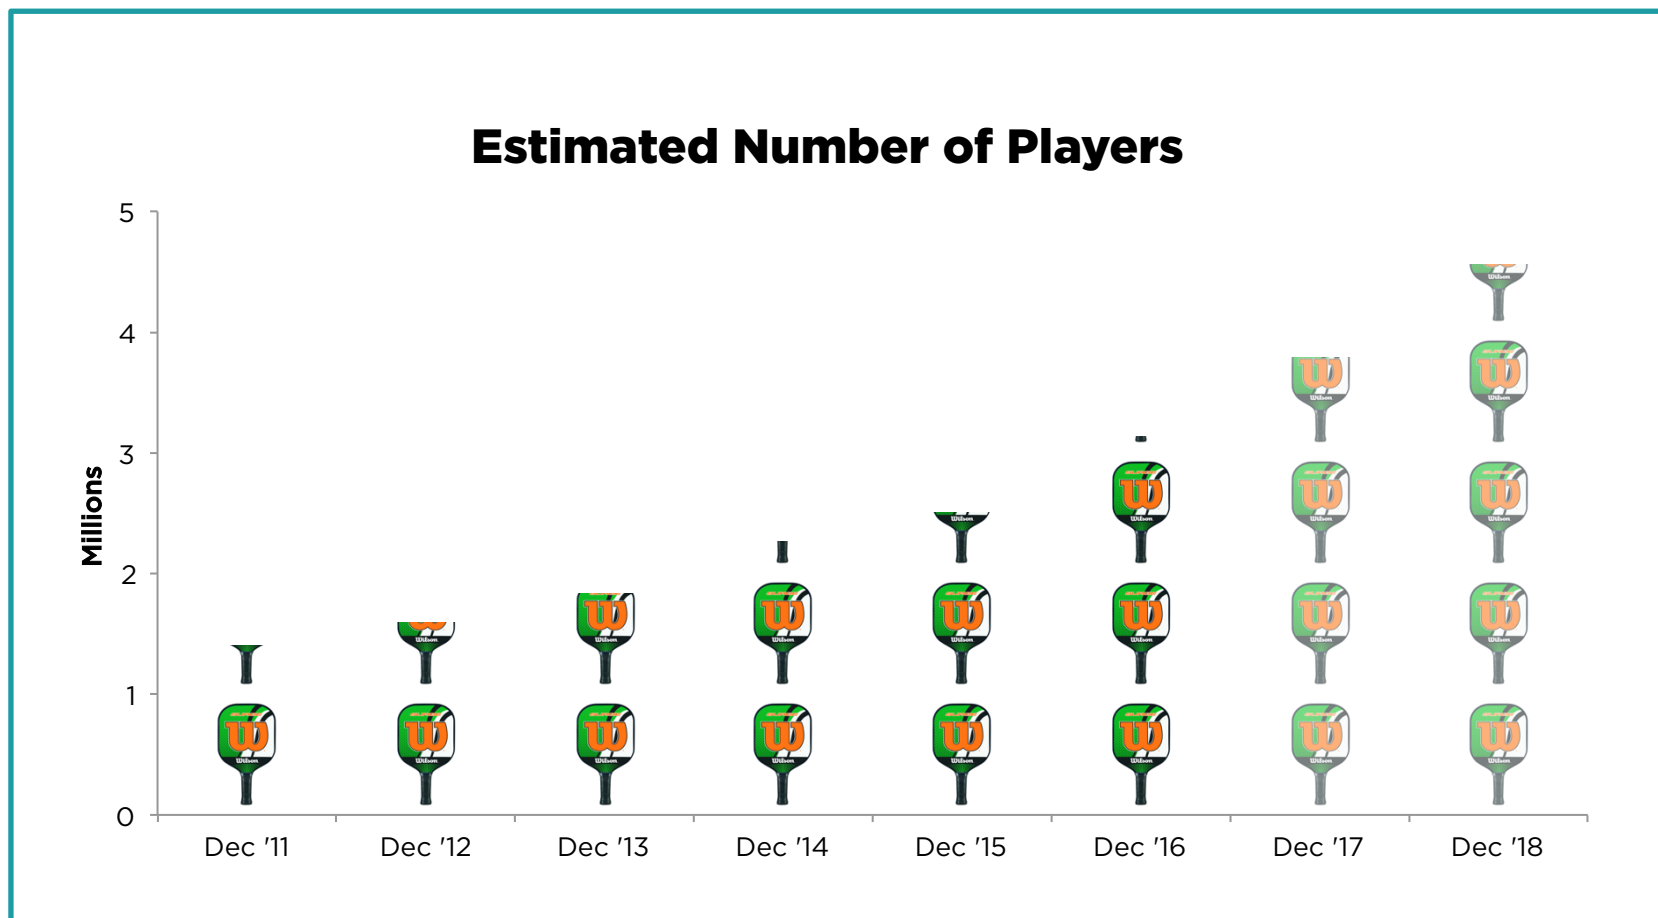

ATTRACTIVE DEMOGRAPHICS

- 55+ make up 36% of Pickleball players – yet only 28% of the population
- 38% of Pickleball players have HH incomes greater than \$100,000, compared to 27% of the population
- 31% of Pickleball players have a post-graduate education – 2-1/2 times the population at large

CONSISTENTLY STRONG GROWTH

There were **3.1 million** people playing Pickleball at the end of 2016 – that number is expected to be almost **5 million** within the next 2 years

Projection based on growth in USAPA membership, 2011 to present

OPPORTUNITY

Economic

As with most sporting activities, opportunities abound for investments:

- Facilities
- Equipment
- Apparel
- Professional player sponsorships

Given Pickleball's very diverse demographic and growing numbers, there are additional opportunities:

- Pickleball bar (Example: www.chickenpickles.com)
- Multi-use 'court sport' complex
- Professional league development
- Tournaments
- Camps and development activities
- Corporate events

APPEALING TO FITNESS-ORIENTED INDIVIDUALS

41% of Pickleball players
engage in aerobic
exercise (High Impact /
High Intensity)

22.5%

maintain a running
or jogging routine

23.7%

participate in 'boot camp'
style training

...WITH ACTIVE LIFESTYLES

27%.
are campers

29%.
of Pickleball
players are cyclists

19.3%
are mountain /
ice climbers

AN ECONOMIC STORM IS BUILDING

From the 2016 U.S. Open Pickleball Championships which received nationwide coverage and was broadcast on CBS Sports Network

7
Countries represented

12
Years of age for the youngest player

42/50
States represented

39
States represented

808
Total number of athletes registered

89
Years of age for the oldest participant

10,000 – 12,000
Spectators who attended the five-day event

\$2.5M
Economic impact according to Collier County Visitor's Bureau

The U.S. Open has seen a 40-percent increase in players in just its second year.

MORE THAN 1,300 PICKLEBALLERS ARE SIGNED UP FOR THIS YEAR'S TOURNAMENT.

*It's exploded.
The sport is
increasing rapidly,
exponentially."*

Jim Ludwig
Tournament Director

THE CHICKEN N PICKLE IS A FIRST-OF-ITS-KIND PICKLEBALL BAR / RESTAURANT IN NORTH KANSAS CITY.

OPPORTUNITY

Community

1. Re-purpose ailing and under-utilized community tennis courts

2. Build new public facilities in small areas

- Increased utilization of public spaces and creates a renewed sense of community
- A Pickelball court is one-third the size of a tennis court, and people play doubles . The utilization of space increases by 600%
- Accessible to all ages
- Engages the senior community
- The only sport where an elderly individual can legitimately compete with someone half their age
- The equipment is low cost, extremely durable and can withstand public use

Pickleball is a sport that unites people. Everyone can play. It doesn't require hundreds of hours of practice to become competent – you are having fun in minutes. There is something fundamentally good about that.

It is also impossible to judge how competent someone is based on appearance alone. It's inspiring."

Steve Kuhn

Dave Weinbach, along with his partner Kyle Yates, won the 2017 Pro Men's Double Gold Medal at the US Open Pickleball Championship. He is 48 years old.

As soon as there is some prize money in Pickleball, there will be a migration of retired tennis players into the sport. This will push the sport to an entirely different level. Dominant pro tennis players will be able to extend their professional sporting career by 15-20 years.

OPPORTUNITY

Health

- Not an intimidating sport
- Accessible
- Low impact
- The ease of adoption and addictiveness of the sport can be life altering for inactive people
- Assists in the fight against obesity across all ages
- Builds self-esteem and improves mental health
- Offers an alternative for those with limited mobility

Pickleball saved my life.

I was morbidly obese when I started to play, and now I weigh 235 pounds and I'm shooting for 220 pounds.

I also started walking every day and I changed my eating habits. Pickleball got me hooked on exercise again, and now I play three or four times a week."

Steve Brodsky

OPPORTUNITY

Charity / Kids

- Pickleball is an incredible way to build confidence in children
- Doesn't require extensive budgets to play
- Pickleball paddles are far more durable than tennis rackets, which increases their lifespan and reduces costs
- Gets kids off of screens and promotes a more balanced and healthy lifestyle
- It is a fantastic way to unite and engage with disenfranchised children that have had tough childhoods
- Cost of a junior Pickelball program is the fraction of the cost of a junior tennis program

THE FUTURE

- The level of competition is increasing rapidly
- Tier 1 sponsors are starting to pay attention to the sport's growing popularity
- If a pro league does surface, Pickleball could extend the careers of many different professional athletes
- Tier 1 media organizations are starting to talk about the sport
- Pickleball could one day become an Olympic Sport

APPENDIX

THE GAME

THE EQUIPMENT

COURT

- 20 feet wide X 44 feet long
- Surface is typical to tennis courts and basketball courts
- Net is 34 inches high
- Court is broken into 4 quadrants, not including a 7 foot wide section at the net
- There exists a seven foot “no volley” line to prevent “spiking.”

PADDLE

- Constructed of wood, composite or graphite
- Combined length and width, including any edge guard and butt cap shall not exceed 24 inches
- The most common paddle measurement approximately 8 inches in width and 15 $\frac{3}{4}$ inches long
- There is no restriction on thickness

BALL

- Durable material
- Hollow
- Smooth surface
- Uniform color
- Size: 2.874 inches – 2.972 inches in diameter
- Weight: 0.78 – 0.935 ounces
- Bounce: have a bounce between 30 – 34 inches when dropped from a height of 78 inches
- Design: shall have 26 – 40 circular holes

HOW TO PLAY

RULES

- Can be played indoors and outdoors
- Serve is diagonal (starting with the right-hand service square)
- The serve continues, alternating sides, until there is a fault, at which point the service is given to the opposing side.
- Each side must let the ball bounce once before volleys (hitting the ball before it bounces) are allowed
- Serve must be underhand with the paddle below the waist with both feet behind the back line
- There are singles and doubles games in Pickleball

SCORING

- The first side scoring 11 points wins, but you must win by 2 points
- Points are scored only on the serve

FAULT

- Touches any part of the non-volley zone on the serve (including the line)
- Is hit out of bounds
- Does not clear the net
- Is volleyed from the non-volley zone
- Is volleyed before a bounce has occurred on each side

THE COURT

COST OF CONSTRUCTION

PAINTING COURTS

In cases where existing slabs are present (tennis, basketball court etc.), permanent painting can transform these into Pickleball courts.

Est. Cost: \$300-\$400

NEW CONSTRUCTION

In cases that require brand new construction, a typical per-court price runs around **\$4,000-5,000**

The Corporation of the City of Elliot Lake

Staff Report OPS2017-26

Report of the **Director of Infrastructure Services**
for the Consideration of Council

RE: DRAINAGE DITCH RECONSTRUCTION

OBJECTIVE

To provide Mayor and Council with information regarding the outcome of the tender for a drainage ditch reconstruction project on Dunlop Shores Road.

RECOMMENDATION

THAT Staff Report OPS2017-26 dated August 29, 2017 of the Director of Infrastructure Services be received;

AND THAT contract 2017-11 for reconstruction and upgrade of a drainage ditch system in the amount of \$93,535.⁰⁰ plus applicable taxes be awarded to Wendell Farquhar Trucking Ltd.

Respectfully Submitted

A handwritten signature in black ink, appearing to read "Sean McGhee", with a horizontal line underneath.

Sean McGhee
Director of Infrastructure Services

August 29, 2017

BACKGROUND

There is a storm water drainage system situated between 574 and 578 Dunlop Shores Road. This ditch was constructed to collect surface water from the surrounding area and direct it to the lake.

The drainage system was compromised severely during the heavy rain event of July 27th, 2013. Following investigation by municipal staff, Tulloch Engineering, and Algoma Public Health, an action plan was developed to remediate the ditch and bolster the design. Changes to the system were made to better handle the volume and velocity of water being handled by the ditch. The reconstruction, which occurred late in 2013 was not successful in adequately handling the higher than anticipated flow velocities managed at the site. As a result, the blasted rock fill within the ditch system continued to wash out and was deposited near the shore line of the lake.

The services of Tulloch Engineering were secured at which time a topographical survey and flow analysis was completed. It was determined that the most reliable and durable solution to address the high flow velocities associated with the ditch was a manufactured product. Design was completed utilizing a PVC ditching system with some areas reinforced using concrete flex-mat. Consultation with both homeowners was incorporated into the design process. The municipality will be applying for an easement to permit access for the purpose of maintenance as required.

As ownership and maintenance of the road and all associated infrastructure was assumed by the municipality long ago, these expenses are being considered as corrective maintenance activities. In the future, a thorough inspection of drainage systems should be completed prior to acceptance of any new development to ensure adequate design standards were adopted.

The tender was advertised on the City of Elliot Lake website and through the Merx website. Due to the complexity of the project, and site access limitations associated with the work, a mandatory site visit was held on Thursday August 10th. In total, four (4) firms attended the site visit with two (2) firms submitting bids for the project.

ANALYSIS

The pricing received through the tender process was as follows:

- Beamish Construction Inc. - \$103,000.⁰⁰
- Wendell Farquhar Trucking Ltd. - \$93,535.⁰⁰

No bid irregularities were noted during the tender review process.

FINANCIAL IMPACT

This project will be funded through the 2017 Capital Projects Budget utilizing funds from the Roads Emergency Infrastructure Replacement account. At present, there is \$300,000 available through this funding source. Following completion of the project, there will be a total of \$204,818.⁷⁹ remaining.

LINKS TO STRATEGIC PLAN

Approval of this request will uphold the commitment of Mayor and Council toward “Continued Investment into Infrastructure”. This report serves to assist in “educating the public on infrastructure operations, repair and replacement”.

SUMMARY

The drainage ditch in question has been increasingly problematic in that erosion continues to take place with rock, debris, and silt washing to the shore line of the lake. In order to prevent an escalation of the environmental issues associated with this issue and potential damage to private property; it is recommended that this work be completed as soon as possible.

Office of the City Clerk

Memo

To: Mayor and Members of Council
From: Lesley Sprague, City Clerk
CC:
Date: August 30, 2017
Re: REQUIRED AMENDMENT TO BY-LAW NO. 16-74 – COUNCIL CODE OF CONDUCT

At the regular meeting of Council held August 28, 2017, By-law No. 17-44 was passed to appoint and retain the services of Robert Swayze as Integrity Commissioner for the City of Elliot Lake.

The Integrity Commissioner reports to Council and investigates in an independent manner, the functions assigned by the Municipality, primarily with respect to the application of the Code of Conduct Policy, adopted by by-law No. 16-74.

The Integrity Commissioner has agreed to provide a review of the Code of Conduct and make recommendations with respect to compliance with the applicable legislation. This review will be performed in the near future. However, in order to proceed, there is an immediate need to remove the portion of the Code of Conduct which places the Integrity Commissioner functions and duties with the Chief Administrative Officer of the Municipality. Therefore Sections 9 and 10 must be removed from the Code of Conduct. Mr. Swayze has provided an appropriate replacement for these sections of the current Code of Conduct. A draft by-law to amend the Code of Conduct By-law No. 16-74 is attached.

L. Sprague

THE CORPORATION OF THE CITY OF ELLIOT LAKE

***B*Y-LAW NO. 17-51**

Being a by-law to amend By-law No. 16-74, a by-law to adopt a Code of Conduct Policy for Members of Council, Local Boards, and Advisory Committees.

The Council of the Corporation of the City of Elliot Lake hereby **ENACTS AS FOLLOWS:**

1. **THAT** Council's Code of Conduct Policy is hereby amended as follows:

Remove Sections 10 and 11, and replace with the following:

CODE OF CONDUCT COMPLAINT PROTOCOL

PART A: INFORMAL COMPLAINT PROCEDURE

Any person or a representative of an organization who has identified or witnessed behaviour or an activity by a member of Council that they believe is in contravention of the *Council Code of Conduct* (the "Code") may wish to address the prohibited behaviour or activity themselves as follows:

- (1) advise the member that the behaviour or activity contravenes the Code of Conduct;
- (2) encourage the member to stop the prohibited behaviour or activity;
- (3) keep a written record of the incidents including dates, times, locations, other persons present, and any other relevant information;
- (4) tell someone else (for example, a senior staff member or an officer of the organization) about your concerns, your comments to the member and the response of the member;
- (5) if applicable, confirm to the member your satisfaction with the response of the member; or, if applicable, advise the member of your dissatisfaction with the response; and
- (6) consider the need to pursue the matter in accordance with the formal complaint procedure outlined in Part B, or in accordance with another applicable judicial or quasi-judicial process or complaint procedure.

All persons and organizations are encouraged to initially pursue this informal complaint procedure as a means of stopping and remedying a behaviour or activity that is prohibited by the Code of Conduct. With the consent of the complaining individual or organization and the member, the Integrity Commissioner may be part of any informal process. However, it is not a precondition or a prerequisite that those complaining must pursue the informal complaint procedure before pursuing the Formal Complaint Procedure in Part B.

PART B: FORMAL COMPLAINT PROCEDURE: Integrity Commissioner

Requests for Inquiries s.1

Complaint

1. (1) A request for an investigation of a complaint that a member has contravened the Code of Conduct (the “complaint”) shall be in writing.
- (2) All complaints shall be signed by an identifiable individual (which includes the authorized signing officer of an organization).
- (3) A complaint shall set out reasonable and probable grounds for the allegation that the member has contravened the Code of Conduct. For example, the complaint should include the name of the alleged violator, the provision allegedly contravened, facts constituting the alleged contravention, the names and contact information of witnesses, and contact information for the complainant during normal business hours.

Initial Classification by Integrity Commissioner s. 2

2. (1) The request shall be filed with the Integrity Commissioner for initial classification to determine if the matter is, on its face, a complaint with respect to non-compliance with the Code of Conduct and not covered by other legislation or other Council policies.

No jurisdiction

- (2) If the complaint is not, on its face, a complaint with respect to non-compliance with the Code of Conduct or the complaint is covered by other legislation or a complaint procedure under another Council policy, the Integrity Commissioner shall instruct the City Clerk to advise the complainant in writing as follows:
 - (a) if the complaint on its face is an allegation of a criminal nature consistent with the *Criminal Code of*

Canada, the complainant shall be advised that if the complainant wishes to pursue any such allegation, the complainant must pursue it with the appropriate police force;

- (b) if the complaint on its face is with respect to non-compliance with the *Municipal Conflict of Interest Act*, the complainant shall be advised to review the matter with the complainant's own legal counsel;
- (c) if the complaint on its face is with respect to non-compliance with a more specific Council policy with a separate complaint procedure, the complainant shall be advised that the matter will be processed under that procedure; and
- (d) in other cases, the complainant shall be advised that the matter, or part of the matter, is not within the jurisdiction of the Integrity Commissioner to process, with any additional reasons and referrals as the Integrity Commissioner considers appropriate.

Reports

- (3) The Integrity Commissioner may report to Council that a specific complaint is not within the jurisdiction of the Integrity Commissioner.
- (4) The Integrity Commissioner shall report annually to Council on complaints not within the jurisdiction of the Integrity Commissioner, but shall not disclose information that could identify a person concerned.

Integrity Commissioner Investigation ss. 3 – 8

Refusal to Conduct Investigation

3. (1) If the Integrity Commissioner is of the opinion that the referral of a matter to him or her is frivolous, vexatious or not made in good faith, or that there are no grounds or insufficient grounds for an investigation, the Integrity Commissioner shall not conduct an investigation, or, where that becomes apparent in the course of an investigation, terminate the investigation.

(2) Other than in exceptional circumstances, the Integrity Commissioner will not report to Council on any complaint described in subsection (1) except as part of an annual or other periodic report.

Investigation & Settlement

4. (1) If a complaint has been classified as being within the Integrity Commissioner's jurisdiction and not rejected under section 3, the Commissioner shall investigate and may attempt to settle the complaint.

Public Inquiries Act

(2) Integrity Commissioner may elect to investigate a complaint by exercise of the powers of a commission under Parts I and II of the *Public Inquiries Act*.

(3) When the *Public Inquiries Act* applies to an investigation of a complaint, the Integrity Commissioner shall comply with the procedures specified in that Act and this Complaint Protocol, but, if there is a conflict between a provision of the Complaint Protocol and a provision of the *Public Inquiries Act*, the provision of the *Public Inquiries Act* prevails.

5. (1) The Integrity Commissioner will proceed as follows, except where otherwise required by the *Public Inquiries Act*:

(a) serve the complaint and supporting material upon the member whose conduct is in question with a request that a written response to the allegation by way of affidavit or otherwise be filed within ten days; and

(b) serve a copy of the response provided upon the complainant with a request for a written reply within ten days.

Access

(2) If necessary, after reviewing the written materials, the Integrity Commissioner may speak to anyone relevant to the complaint, access and examine any of the information described in the Municipal Act and may enter any City work location relevant to the complaint for the purposes of investigation and settlement.

Interim Reports

(3) The Integrity Commissioner may make interim reports to Council where necessary and as required to address any instances of interference, obstruction or retaliation encountered during the investigation.

Final Report

6. (1) The Integrity Commissioner shall report to the complainant and the member generally no later than 90 days after the making of the complaint.

(2) Where the complaint is sustained in whole or in part, the Integrity Commissioner may also report to Council outlining the findings, the terms of any settlement, or recommended corrective action.

(3) Where the complaint is dismissed, other than in exceptional circumstances, the Integrity Commissioner shall not report to Council except as part of an annual or other periodic report.

Lawful

Recommendations

(4) Any recommended corrective action must be permitted in law and shall be designed to ensure that the inappropriate behaviour or activity does not continue.

Member not

Blameworthy

7. If the Integrity Commissioner determines that there has been no contravention of the Code of Conduct or that a contravention occurred although the member took all reasonable measures to prevent it, or that a contravention occurred that was trivial or committed through

inadvertence or an error of judgement made in good faith, the Integrity Commissioner shall so state in the report and shall recommend that no penalty be imposed.

Report to Council

8. The City Clerk shall process the report for the next meeting of Council.

Council Review; Costs ss. 9 – 10

Duty of Council

9. (1) Council shall consider and respond to the report within 90 days after the day the report is laid before it.

(2) In responding to the report, Council shall not refer the recommendation other than back to the Integrity Commissioner.

Confidentiality

10. RE: Request to extend Lease Agreement from Rogers Communications

Dear Mayor and Members of Council:

We wish to advise that at the regular meeting of the By-laws and Planning Committee held Tuesday, August 8, 2017 the Committee deferred the following resolution to the Committee of the Whole:

Res. 26/17

“That Staff Report CK2017-14 of the Director of Clerks and Planning Services, dated July 31, 2017 concerning a request from Rogers Communications Inc. to extend the lease agreement authorized by By-law No. 95-128 for location of communications towers and equipment at the Roman Avenue Water Tower standpipes site be deferred to the next regularly scheduled meeting of the By-law and Planning Committee in order to obtain further information pertaining to what “fair Market rent” actually means.”

Yours truly,

Bruce Ewald, CBCO
Secretary of Bylaw and Planning Committee

Staff Report CK2017-14

Report of the Director of Clerks and Planning Services

RE: REQUEST TO EXTEND LEASE AGREEMENT – ROGERS COMMUNICATIONS

OBJECTIVE

To provide Council with information concerning a request to extend the lease agreement for the Rogers communications tower at the City's standpipes (water tower site off Roman Avenue).

RECOMMENDATION

2017-14
That Staff Report ~~CK2016-36~~ of the Director of Clerks and Planning Services, dated July 31, 2017 concerning a request from Rogers Communications Inc. to extend the lease agreement authorized by By-law No. 95-128 for location of communications towers and equipment at the Roman Avenue Water Tower standpipes site be received;
And that the addition of one 5 year extension term commencing on April 1, 2031 at fair market rent be approved.

Respectfully submitted,

Director of Clerks and Planning Services

Approved by,

Director of Corporate Services /
Interim CAO

July 31, 2017

BACKGROUND

Rogers Communications have a lease agreement with the City for location of a tower and transmitting/receiving antennae mounts and a building to house related equipment on the City's standpipes property at the top of Roman Avenue/Willoughby Road. Rogers standard practice is to secure a 20 year lease for all of their communications towers and equipment. Rogers have given advance notice of their intention to request an extension to their existing lease to provide an additional five year term for the years 2031 to 2036.

Attached is a copy of the draft proposed lease renewal / extension agreement. We are currently entering the fourth extension term of the agreement authorized by By-law No. 95-128 at \$6,000.00 per year.

ANALYSIS

The City has already passed By-laws in 2001, 2006 and 2011 to approve extension agreements in the future. Rogers have historically paid their rent in a timely manner.

There is provision in the lease agreement to terminate should there become difficulties with interference with other wireless communications/transmissions.

Previous renewals have been agreed to at an increase of \$500.00 per annum in the rental amount for each additional 5 year extension term.

Options to Extend the Lease agreements over 5 year terms with lease amount paid per annum:

	1995-2001	\$4,000
	2001-2006	\$4,500
	2006-2011	\$5,000
	2011-2016	\$5,500
By-law 01-22	2016-2021	\$6,000
By-law 06-61	2021-2026	\$6,500
By-law 11-13	2026-2031	\$7,000
	2031-2036	(City proposed \$7,500; Rogers propose fair market rent)

Rogers had proposed a new clause 4. Rent Payable during the Extension Terms with respect to the lease amount being set at "Fair Market Rent". At the City's request, Clause 4. was expanded to clarify the lease amounts previously authorized to ensure the rent payable for those terms shall not be overturned. It was recognized however, that the 5 year term commencing in the year 2031, shall reflect fair market rent. Rogers have proposed that the lease extension term for 2031 to 2036 be set *at Fair Market Rent for similar sites in the vicinity of the property, or as determined by an arbitrator appointed under provincial arbitration legislation.*

At the last renewal extension in 2011, city staff verified that The City of Timmins and the Town of Dryden have agreements for comparable amounts. (ie. City of Timmins have an agreement at \$6,000 per year until the year 2022.) Municipalities in our immediate area do not have agreements with a

communications company comparable to Rogers, as these companies often have agreements for their towers on private property, or lease space on an existing tower.

This request for an extension lease was presented to Council on December 12, 2016 and the following resolution was passed:

Res. 418/16

That the matter be deferred to the next regular meeting of Council pending a review of the requirement to have a signal light on top of the tower.

The Director of Infrastructure Services has been corresponding with Transport Canada and the Project Manager for Rogers Communications. The signal/beacon light at the top of the Rogers Tower is now functioning as of June 29th.

FINANCIAL IMPACT

The lease rate is reasonable in comparison with rates other municipalities are collecting.

LINKS TO STRATEGIC PLAN

n/a

SUMMARY

It is recommended that the Council approve the request from Rogers for a further five year extension to the term of their lease agreement, and that the necessary by-law authorizing the lease extension be passed.

LEASE AMENDING AND EXTENSION AGREEMENT**BETWEEN:****THE CORPORATION OF THE CITY OF ELLIOT LAKE**
(the "Landlord")

- and -

ROGERS COMMUNICATIONS INC.
(the "Tenant")**WHEREAS:**

- A. The Landlord and Rogers Wireless Inc., as tenant entered into a lease commencing the 8th day of September 1992, and the Landlord and the Tenant entered into a Lease Amendment and Extension agreement dated the 21st day December 2012 (collectively the "Lease") with respect to a certain real property municipally known as Block B, Plan M1-152, in the City of Elliott Lake, Ontario (the "Property") more particularly described in the Lease;
- B. By amalgamation effective July 1, 2007, Rogers Wireless Inc. amalgamated with its affiliated corporation Rogers Communications Inc., Rogers Cable Inc., Rogers Wireless Communications Inc., and RWCI Acquisition Inc., and continued as Rogers Communications Inc.;
- C. The Landlord and Tenant have agreed to amend and extend the Lease as hereinafter provided.

THEREFORE in consideration of the mutual covenants, terms, conditions and agreements contained herein the Landlord and the Tenant agree as follows:

1. **Demise and Term**

The Landlord hereby leases to the Tenant the Property for and during the term of five (5) years commencing on the 1st day of April 2016 and expiring on the 31st day of March 2021 (the "Third Extension Term").

2. **Rent**

During the Third Extension Term the Tenant shall pay the Landlord an annual rent of **Six Thousand Dollars (\$6,000.00)** plus applicable taxes payable in advance during each year of the Third Extension Term.

3. **Option for Additional Extension Term**

The Landlord irrevocably grants to the Tenant the option to further extend the Term for one (1) further and consecutive period of five (5) years, commencing April 1st 2031. The option shall be deemed to be exercised by the Tenant unless the Tenant gives notice in writing at least 60 days prior to the expiry of the term or any extension period as the case may be stating that it elects not to exercise such option.

4. **Rent Payable During The Extension Terms**

Rent for the extension terms are payable as follows:

For the period of April 1st, 2021 up to and including March 31st, ~~2026~~²⁰³¹, the Tenant shall pay the Landlord an annual rent of Six Thousand, Five Hundred Dollars (\$6,500.00) plus applicable taxes;

For the period of April 1st, 2026 up to and including March 31st, 2026, the Tenant shall pay the Landlord an annual rent of Seven Thousand Dollars (\$7,000.00) plus applicable taxes; and

For the period of April 1st, 2031 up to and including March 31st, 2036 rents shall be set at fair market rent for Tenant sites for similar uses in the vicinity of the property as agreed by the parties acting reasonably, or, failing agreement, by a single arbitrator appointed under provincial arbitration legislation.

5. **Assignment of Lease**

The Landlord shall not assign the Lease or any interest therein without the Tenant's prior written consent, except to a principal lender or purchaser of the Property.

6. **Application of Lease**

The Landlord and Tenant acknowledge and agree that except as otherwise provided herein this agreement shall be on the same terms and conditions as the Lease and the capitalized terms herein unless otherwise provided shall have the same meaning as ascribed to them in the Lease. All other terms and conditions of the Lease remain in full force and effect.

IN WITNESS WHEREOF the parties hereto have hereunto executed this agreement as of the date written below.

1. **Demise and Term**

The Landlord hereby leases to the Tenant the Property for and during the term of five (5) years commencing on the 1st day of April 2016 and expiring on the 31st day of March 2021 (the "Third Extension Term").

2. **Rent**

During the Third Extension Term the Tenant shall pay the Landlord an annual rent of Six Thousand Dollars (\$6,000.00) plus applicable taxes payable in advance during each year of the Third Extension Term.

3. **Option for Additional Extension Term**

The Landlord irrevocably grants to the Tenant the option to further extend the Term for one (1) further and consecutive period of five (5) years, commencing April 1st 2031. The option shall be deemed to be exercised by the Tenant unless the Tenant gives notice in writing at least 60 days prior to the expiry of the term or any extension period as the case may be stating that it elects not to exercise such option.

4. **Rent Payable During The Extension Terms**

Rent for the extension terms are payable as follows:

For the period of April 1st, 2021 up to and including March 31st, 2026, the Tenant shall pay the Landlord an annual rent of Six Thousand, Five Hundred Dollars (\$6,500.00) plus applicable taxes;

For the period of April 1st, 2026 up to and including March 31st, 2031, the Tenant shall pay the Landlord an annual rent of Seven Thousand Dollars (\$7,000.00) plus applicable taxes; and

For the period of April 1st, 2031 up to and including March 31st, 2036 the Tenant shall pay the Landlord an annual rent of Seven Thousand Five Dollars (\$7,500.00) plus applicable taxes

Site Name: Elliott Lake

Location Code: C0685/50773001

5. Assignment of Lease

The Landlord shall not assign the Lease or any interest therein without the Tenant's prior written consent, to a party that merely wishes to purchase the Landlords interest in the Lease.

6. Application of Lease

The Landlord and Tenant acknowledge and agree that except as otherwise provided herein this agreement shall be on the same terms and conditions as the Lease and the capitalized terms herein unless otherwise provided shall have the same meaning as ascribed to them in the Lease. All other terms and conditions of the Lease remain in full force and effect.

IN WITNESS WHEREOF the parties hereto have hereunto executed this agreement as of the date written below.

Official Plan & Municipal By-Law Committee
City of Elliot Lake
45 Hillside Drive North
Elliot Lake, ON
P5A 1X5

Dear Committee Members,

Re: Requested Amended to By-law No. 59-93

It was brought to my attention a short while ago of the existence of By-law No. 59-93, which is a by-law regulating the keeping of domestic fowl, pigeons, cattle, goats, swine, horses, rabbits, mink and foxes. This by-law actually states that no one shall keep such animals within one thousand feet of any dwelling house located within a registered plan of subdivision.

This by-law is not listed or shown on the City website.

I would like to have this by-law amended to allow for the keeping of backyard hens. There are a number of cities and towns in Canada which allow for the keeping of hens in city limits, including Victoria, Saanich, Nelson, Guelph, Niagara, Brampton, Surrey, Kingston, Quinte West, to name a few.

The benefits for keeping laying hens include fresher eggs, greater control over egg source, and companionship. Hens are no more noisy, smelly or dirty than your average household pet and they are easy to look after.

Keeping laying hens is no different than growing your own vegetables. Chicken waste products also provide good compost for gardens. I have been growing vegetables in order to have fresh, truly organic vegetables for a long time. About five years ago I started looking into getting some hens to supplement my "home grown" diet. After checking the by-laws of the City of Elliot Lake which were on-line and not finding any that forbade chickens, I decided to get some.

I researched what I would need to know in order to take care of laying hens and found out that I could get hens locally from an organic farmer in McKerrow. She was very helpful in assisting me finding the necessary feed, straw, etc. that I would require, and what I should do to keep the hens safe, and warm in winter.

I asked my neighbours if they would mind, and they thought it was a great idea, so in the spring of 2014 I built a coop and made a chicken run in the back yard. I purchased the necessary food and straw, and then got six laying hens. The first year was an experience, learning what worked and what didn't; chasing a chicken out of the neighbour's yard that had got through a hole in the hedge, with the neighbour following us with a camera! We lost two chickens the first year to a raccoon that was living under the neighbour's shed, but learned where the hole in our defense was and closed it up.

Since that first year we have not had any escapes, and we have not been bothered, in any way, by predators or other pests, other than squirrels and chipmunks. The feed is kept in critter proof cans, in the locked chicken run. By 8:00 p.m. the hens are already in their coop, waiting to be locked up.

This is the fourth year we have had hens, and at no time have we receive any complaints from neighbours.

Again, I ask the council to amend the present by-law no. 59-93 to allow for the keeping of laying hens in back yards within the City of Elliot Lake. I have included some material on this matter, mostly from Newmarket which is presently conducting a pilot project before passing a by-law for the keeping of backyard hens, as well as a couple of other City by-laws respecting hens:

1. City of Newmarket Corporate Services report on Keeping of Laying Hens dated September 11, 2013.
2. Urban Hens in the Town of Newmarket, a Powerpoint Presentation by Marc Mantha dated March 2013.
3. Backyard Hens Report March 2013, Newmarket.
4. Newmarket Urban Hens Public Information Centre Pilot Project.
5. Copy of City of Guelph By-law No. (2016)-20122.
6. City of Niagara Falls By-law No. 2002-129.

Your earliest attention to this matter would be appreciated.

Sincerely,

Elaine Carter

THE CORPORATION OF THE IMPROVEMENT DISTRICT OF ELLIOT LAKE

BY-LAW NO. 59-93

Being a By-law regulating the
keeping of domestic fowl, pigeons,
cattle, goats, swine, horses,
rabbits, mink and foxes.

WHEREAS under and by virtue of the Municipal Act, Chapter 243, Section 388, Sub-Section (1), Paragraph 1, R.S.O. 1950, the Board of Trustees of The Improvement District of Elliot Lake is authorized to pass a By-law for regulating the keeping of domestic fowl, pigeons, cattle, goats, swine, horses, rabbits, mink or foxes within the Municipality or defined areas thereof;

AND WHEREAS it is expedient to pass this By-law for the Improvement District of Elliot Lake;

NOW THEREFORE the Board of Trustees of the Improvement District of Elliot Lake ENACTS AS FOLLOWS:

1. No one shall keep or house domestic fowl, pigeons, cattle, goats, swine, horses, rabbits, mink or foxes within one thousand feet of any dwelling house located on any lot shown on any registered plan of subdivision within the Improvement District of Elliot Lake.
2. Any person convicted of a breach of any of the provisions of this By-law shall forfeit and pay a penalty not exceeding \$50.00, at the discretion of the convicting magistrate, for each offence, exclusive of costs, and on default of full payment of the said penalty and costs forthwith, the said penalty and costs may be levied by distress and sale of the goods and chattels of the offender, and in case there be no distress fund on which the said penalty and costs may be

levied, the convicting magistrate may commit the offender to the common goal, with or without hard labour, for a period not exceeding twenty-one days, unless the said penalty and costs are sooner paid.

3. That this by-law shall come into force and take effect upon the day that it receives the approval of the Department of Municipal Affairs for Ontario.

THE CORPORATION OF THE CITY OF ELLIOT LAKE

***B*Y-LAW NO. 04-105**

Being a by-law to prohibit the
keeping of certain kinds of
animals.

The Council of The Corporation of the City of Elliot Lake, pursuant to Section 128 (Public Nuisances) of The Municipal Act, 2001, **ENACTS AS FOLLOWS:**

DEFINITIONS

1. In this by-law,

“**animal**” means any member of the animal kingdom or living beings, including mammals, birds and reptiles, but excluding fish.

“**keep**” means to have temporary or permanent control or possession of an animal.

KEEPING OF CERTAIN KINDS OF ANIMALS PROHIBITED

2. Subject to Section 3.0, no person shall keep or cause to be kept any animal listed on Schedule “A”, attached hereto.

EXEMPTIONS

3. The provisions of Section 2.0 do not apply to the keeping of those animals listed in Schedule “B” or, in the circumstances listed in Schedule “C”.

PENALTY

4. Every person who contravenes any provision of this by-law is guilty of an offence and upon conviction under the *Provincial Offences Act* is liable to a fine and any other penalty imposed.

SHORT TITLE

5. This by-law shall be known as the “Exotic Pets By-law”.

PASSED this 13th day of December, 2004.

MAYOR

CITY CLERK

SCHEDULE "A"

Re: Campfires in Residential Backyards

To Whom This May Concern,

My name is Micheline and I am writing this letter regarding residential campfires near my home. Please be assured that I have no intention of disrupting my neighbour's enjoyment of their backyard. I wouldn't be bringing this to attention unless it was truly affecting my well being.

The slightest particulates from perfumes, artificial scents and especially smoke sets off my asthma, burning my throat, swelling my eyes and making it impossible to breath.

My asthma is often affected during the summer months due to campfires and I do my best to stay indoors to not be affected. I only will call the fire department when it becomes unbearable but I know that they have better things to do then respond to my complaints.

One night two years ago I woke up around midnight suffocating from a campfire burning nearby. I had to drive down by the lake in the middle of the night, not knowing where else to go. I sat in the car alone in tears until my husband told me it was safe to come back. It was 5:00 am by the time the air had cleared. He'd offered to accompany me but I knew he needed to stay home and sleep for work the next day.

Even when campfires occur during good venting days, particulates stay at ground level according to Health Canada studies. The studies also show that wood smoke contain a number of pollutants that can be harmful to your health (www.canada.ca/avoid_woodsmoke). No matter how diligent my neighbours are, no one can guarantee that the wind will not change and the smoke enter my home. I would also like to point out that many government offices and all hospitals offer a scent free environment. This is due to the increasing number of people with severe sensitivities to allergens.

We have been good residences of Elliot Lake for the past 29 years. My husband has worked near Sudbury for 27 of those years but we have chosen to call Elliot Lake our home thanks to the kind people and especially the clean air which it provides.

I ask that a sort of buffer be put around our home, 150 meters. I realize that this is a huge

request but I feel that if this isn't brought up, my health will continue to be compromised. I know that there are numerous other residents that feel the same but are too scared to mention this for fear they will offend their neighbours.

Please take my concerns into serious consideration and thank you for your time.

Yours Truly,
Micheline

My name is Micheline
Live on Axmith Ave in Elliot-lake

I am writing this letter to complain to the city of Elliot-lake about the backyard fire.

I have a medical condition, Asthma when they have fires my house fills up with smoke I have nose bleeds it hurt my lung and effect my voice and I cant breath I have to leave my own house so I can breath it Ham my health, It take me 2 to 3 days to recover.

All I want is to be able to open my windows and doors and sit in my own backyard.

I have talk to the fire Department the city hall the Maire and the police, No one will Help me.

This is last years letter

First Visit No

2nd Visit No

REQUIREMENTS

1. The fire permit holder shall keep the fire permit at the site identified in the fire permit as the site of the burning operation & shall produce the permit if requested by the Fire Chief or Officer of the Fire Department.
2. Burning can only be conducted after 6PM & before 10AM & at no other time.
3. Size of Fire:
 - i. URBAN: No more than .226 cubic metre being .61x.61x.61 (2'x2'x2') of material can be burned at one time.
 - ii. RURAL: All land clearing debris shall be in piles separated by at least 4.57 metres (15 feet).
4. The fire shall be overseen at all times by an adult person and the permit holder shall maintain at all times during the burning at the site equipment to suppress the fire including but not limited to shovels, water, hose and pumps.
5. No burning shall be conducted when wind velocities are 16 kilometres per hour or more.
6. The permit holder shall not create a condition that interferes with the use of the property of any neighbouring property owner.
7. Shall not burn at a distance of less than 3 metres (9.85') from a building, structure, hedge, highway, overhead wire or any other obstruction. Further shall not burn garbage or any materials, which are toxic or hazardous including, but not limited to, painted and pressure treated materials.
8. Other conditions as may be added to the Fire Permit by the Fire Chief.
9. Extinguishment: the fire permit holder is responsible to ensure total extinguishment of the fire prior to leaving the fire unattended.
- 10.

Permit expires on October 31 2016

THE CORPORATION OF THE CITY OF ELLIOT LAKE

***B*Y-LAW No. 07-23**

Being a by-law to regulate the setting of open air fires and to provide for the prevention of the spreading of fires within the Corporation of the City of Elliot Lake and to repeal By-law No. 86-26.

WHEREAS the Council may pass by-laws under section 7.1 of the Fire Protection and Prevention Act, 1997, S.O. c.4 regulating fire prevention and the setting of open air fires within the Corporation of the City of Elliot Lake,

AND WHEREAS the Corporation of the City of Elliot Lake is desirous of passing such a by-law.

NOW THEREFORE The Council of the Corporation of the City of Elliot Lake **ENACTS AS FOLLOWS:**

1. For the purposes of this by-law,
 - (a) "Fire Chief" means person appointed by Council of The Corporation of City of Elliot Lake as the Fire Chief for the Elliot Lake Fire Department and includes any person authorized by the Fire Chief to issue fire permits under authority of this by-law.
 - (b) "Officer of the Fire Department" means any firefighter employed by The Corporation of the City of Elliot Lake.
 - (c) "Fire Permit Holder" means the person named on the Fire Permit and to whom the fire permit is issued.
 - (d) "Fire Department" means the Elliot Lake Fire Department.
 - (e) "Highway" means any municipal roadway and includes a provincial highway.
 - (f) "Urban Area" means that area between the south end of Esten Drive South and the north end of Timber Road North, and more particularly outlined in the map attached hereto as Schedule "B".
 - (g) "Rural Area" means any other area within the Corporation of the City of Elliot Lake.

-2-

2. This by-law applies to all lands within the geographic area which constitutes the Corporation of the City of Elliot Lake including the following townships:

Beange	Bouck	Buckles
Bolger	Gunterman	Joubin
McGivern	Esten	Proctor.
3. No person shall set or permit a fire to burn in the open air at any time between April 1 and October 31 without first obtaining a fire permit from the Fire Department.
4. The Fire Department will issue the following classes of permits subject to conditions set out therein.
 - (a) Urban Class: for open air burning within the urban areas.
 - (b) Rural Class: for all types of open air burning within the rural areas.
5. The provisions of section 3 do not apply to a fire used for cooking or warmth set at a distance greater than 200 metres from a highway.
6. No person shall set a grass or bush fire, which is not contained and controlled.
7. Any person setting an open air fire in contravention of this by-law or setting an uncontained or uncontrolled grass or bush fire shall pay for the services of the Fire Department to respond and / or extinguish the fire at the following rate
 - (a) Emergency Service Rendered
 - i \$350.00 first hour or part thereof per each piece of equipment
 - ii \$175.00 each additional half hour or part thereof per piece of equipment.
 - (b) No Emergency Services Rendered
 - i \$350.00 flat rate where services not required or provided.
7. An application for a fire permit shall be made on the forms provided by the Fire Department and shall be subject to compliance with the conditions set out in Schedule "A" to this by-law and such other conditions as may be added to the fire permit by the Fire Chief.
8. Every fire permit holder shall comply with all of the conditions set out on the fire permit.

-3-

9. If any conditions set out on the fire permit are contravened, the Fire Chief or Officer of the Fire Department may demand that the fire be extinguished and if the permit holder refuses, an Officer of the Fire Department shall extinguish the fire, and the cost of the extinguishment will be charged to the fire permit holder and if unpaid may be added to the tax roll for the property of the permit holder and collected in the like manner as taxes.
10. In addition to the provisions of section 10 the Fire Chief or Officer of the Fire Department may revoke a fire permit at any time if any provisions of this by-law have been contravened.
11. The conditions of the fire permit set out in Schedule "A" are part of this by-law.
12. Every persons who contravenes any provision of this by-law is guilty of an offence and on conviction liable to a fine of five (\$5,000) thousand dollars.
13. THAT By-law No. 86-26 is hereby repealed

PASSED this 26th day of March, 2007

MAYOR

CLERK

Schedule "A" to By-law No. 07-23 of The
Corporation of the City of Elliot Lake.

Conditions of Fire Permit Classes

Urban Area Class Permit

Every Fire Permit issued for the Urban Area shall be subject to the following conditions:

1. The fire permit holder shall keep the fire permit at the site identified in the fire permit as the site of the burning operation during the burning operation and shall produce the permit if requested by the Fire Chief or Officer of the Fire Department.
2. Burning can only be conducted after 6PM and before 10AM and at no other time.
3. No more than .226 cubic metre being .61x.61x.61 (2'x2'x2') of material can be burned at one time.
4. The fire shall be overseen at all times by an adult person and the permit holder shall maintain at all times during the burning at the site equipment to suppress the fire including but not limited to shovels, water hose, and pumps.
5. No burning shall be conducted when wind velocities are 16 kilometres per hour or more.
6. The permit holder shall not create a condition that interferes with the use of the property of any neighbouring property owner.
7. Shall not burn at a distance of less than 3 metres (9.85') from a building, structure, hedge, highway, overhead wire or any other obstruction.
8. Shall not burn garbage or any materials, which are toxic or hazardous including, but not limited to, painted and pressure treated materials.
9. Other conditions as may be added to the Fire Permit by the Fire Chief.

Rural Area Class Permit

Every permit issued for the Rural Area shall be subject to the following conditions.

1. The fire permit holder shall keep the fire permit at the site identified in the fire permit as the site of the burning operation during the burning operation and shall produce the permit if requested by the Fire Chief or Officer of the Fire Department.
2. Burning can only be conducted after 6PM and before 10AM and at no other time.
3. All land clearing debris shall be in piles separated by at least 4.57 metres (15').

Schedule "A" to By-law No. 07-23 of The
Corporation of the City of Elliot Lake.

4. The fire shall be overseen at all times by an adult person and the permit holder shall maintain at all times during the burning at the site equipment to suppress the fire including but not limited to shovels, water hose, and pumps.
5. No burning shall be conducted when wind velocities are 16 kilometres per hour or more.
6. The permit holder shall not create a condition that interferes with the use of the property of any neighbouring property owner.
7. Shall not burn at a distance of less than 3 metres (9.85') from a building, structure, hedge, highway, overhead wire or any other obstruction. Greater distances required for slash and brush burning.
8. Shall not burn garbage or any materials, which are toxic or hazardous including, but not limited to, painted and pressure treated materials.
9. Other conditions as may be added to the Fire Permit by the Fire Chief.

**Re: Campfires/Fire Pits in backyards of Residential Dwelling
Row/Townhouses.**

**Please consider eliminating fire permits for Residential
Row/Townhouses in the City of Elliot Lake.**

I feel that campfires in backyards of Row Houses are inappropriate for the enjoyment and comfort of neighbouring units as well as fire hazards and unhealthy breathing problems for tenants of adjoining row houses.

During the Spring, Summer and Fall months, windows need to be opened for proper temperature control in the units. The backyards are quite small and proximity of windows of neighbouring units are close by. The fences to the center of a fire pit isn't of the necessary restrictive dimensions noted in the **bylaw #07-23** as well as other structures or other items around a fire pit area. Unfortunately, many people do not like to report their neighbours knowing that there could be repercussions from the neighbours they're having a concern with.

If the **bylaw #07-23** was changed to not allow campfires in backyards of row-houses it would eliminate the above issues. Typically the backyards of row houses either are on the bush line or other roadways and I find it intrusive to others well being as well as a threat to fire safety. The majority of the row houses do not have outside taps in the rear of the dwelling. The permit holder is suppose to be present while the fire is active, unfortunately no one is policing these rules and they are not being followed.

Irene Drouin
I. Drouin

Attached Bylaw #07-23

RECEIVED
AUG 30 2017

August 30, 2017.

To the Mayor of Elliot Lake + Members of City Council:

It has been brought to my attention that the topic of firepits is to be discussed at the next Council Meeting.

I live in a townhouse unit on Highland Place. The adjoining unit holds a fire permit. I have driven into my driveway under a shower of debris from their fire pit on the other side of the building. I've walked into my home + panicked because of the smell of smoke despite the fact that windows + doors had been closed.

It is impossible to open windows + doors for ventilation when the firepit is being used as prevailing breezes can change + the smoke is directed back toward the building. It is only a matter of a few feet between the pit + my patio door, the main point of ventilation for my living room. I have placed floor + pedestal fans in the doorway to exhaust air in an attempt to draw air from the ~~to~~ front of the building with limited success.

In addition, it is impossible to ensure that only approved materials are being burned. Noting styrofoam packing materials, plastic bags, etc., in or in the vicinity of the pit, leads me to believe these materials are being burned with the potential of releasing toxic fumes. As I use an inhaler to control a chronic cough, this is of great concern to me.

I would ask that Council seriously reconsider the issuing of fire permits in these cramped conditions, keeping in mind

that we are unable to enjoy our own yards, and even our homes, when these pits are being used.

For your consideration,

Anne Hughes

3 Highland Place

P.S. In addition to the above, music always is played when the pit is being used through speakers mounted on the outside wall. One of these speakers is mounted adjacent to my patio door. On occasion, it has reached dance hall volumes making it difficult to hear the television even with the door closed. Efforts to have this situation corrected has resulted in retaliatory action including leaving the speakers turned onto a radio station, low volume, high base, for days at a time knowing that the speaker is just under my bedroom window.

Aug 2017

To Whom it may concern:

Upon moving to Elliot Lake a short time back, we were not long realizing we would not be able to open our doors or windows, not even on those hot sticky nights, due to the choking smoke from all the fires. We have 9 neighbours that we know of that have fires on most nights. A couple of them that we know of for a fact burn much more than wood. They burn household trash, remodeling trash including flooring such as tile, linoleum etc. also painting supplies and insulation. The air quality is so bad on some nights, if you were to open a window, it would literally make you sick. We have actually considered moving from Elliot Lake for this reason. I think Council and the residents of Elliot Lake should be concerned about the health hazards from this type of burning.

Thank you

Frustrated In
Elliot Lake

24 August 2017.

To whom it may concern:

Our household is in favour of banning backyard fires within the City of Elliot Lake. Many cities and towns have this by-law in place already. Hopefully this will be given serious consideration.

Campfires have their place, and I would not like our cottage lot areas to be affected by this ban should it be implemented,

Brenda Clark

AUG 30-2017

TO WHOM IT MAY CONCERN
WE HAVE MOVED TO ELLIOT LAKE IN SEPT 2016.
THE AIR QUALITY WAS FINE
THIS SUMMER HAS BEEN UNBEARABLE THE SMOKE SMELL
IS SO BAD. WE HAVE TO GO INTO THE HOUSE CLOSE ALL
WINDOWS + DOORS SO WE CAN BREATHE. WE CAN'T EVEN OPEN
OUR WINDOW LATER AT NIGHT BECAUSE THE FIRES ARE
STILL SMOLDERING. WE REALIZE THAT EVERYONE HAS A
RIGHT TO ENJOY THEIR PROPERTY, WE WOULD ALSO LIKE TO
ENJOY OURS, ALSO THERE IS ONLY ONE WAY OUT OF
ELLIOT LAKE WE WOULD NOT LIKE TO SEE A FIRE.

THANK YOU
RUSSELL + APRIL LAGUNA
2A WASHINGTON CRES.

Aug 28, 2017

The reasons why we think back yard
fire pits should not be allowed.

1. The sparks fly up as high as the roofs.
2. The smoke goes through out the house.
3. We can't sit outside in our back yard
4. When he puts a fire on we have to close
our sliding door because our throat and
eyes burn.
5. Theresa LARUE
1 Highland Place.

Aug. 23/17

City Hall

Attn: Committee of the Whole

I have emphysema & asthma & when there are backyard fires in my neighbourhood it really causes me problems.

I am unable to sit out on my deck and have to close all the windows.

I have also read how harmful breathing in smoke from a wood fire can be to the lungs.

It would be nice to see all fires kept out of city limits. Restrict to camps.

Thankyou for your attention to this matter.

Signed

a very concerned citizen.

Elliot Lake Council, Committee of the Whole
 Aug 29, 2017

In response to a request for citizens to express their concerns regarding in-town fire pits, I have to say I object to these fires in residential areas. Just tonight I had to hold my breath and close my windows and breathe carefully to not go into an asthma spasm, as someone was having a fire somewhere in the neighbourhood. On hot summer evenings when it is starting to cool down, to have to shut windows and be barricaded inside just to breathe is not pleasant. I enjoy a campfire too... at camp, in the bush, away from town, where I can move away to avoid the smoke. I realize it is fun and cosy, but when you cannot avoid contact for health reasons, it is not right. People have rights, true, but breathing is basic! It is not an option. When there is a fire ban for safety reasons, people understand and obey. This is for health reasons. Sorry to upset those who like fires... but I need to breathe!

Subject: fire pits

Mr Mayor. I dislike in town fire pits.They impact every one in the vicinity.Like someone blowing cigarette smoke in your face.And furthermore you can't get away from them if the wind is blowing it your way. The person having the fire pit on the other hand is not at all impacted because they just move their chair to the other side. And you can't move your house to the other side. And there are people with lung ailments.

Re: Campfires in Residential Backyards

Further to the discussions at the recent Bylaw and Planning Committee meeting, I would like to support the continuance of campfires in residential backyards.

As you discuss this issue, please do not take away my right to spend time with family and friends in my backyard around a warm, glowing campfire. This is a long-standing family tradition to a number of the residents in Elliot Lake. Many newcomers to the City actually consider this one of the benefits of moving to a northern community that is essentially in the bush. On our City's website we proclaim "This is a city in which we get to enjoy living an active and healthy lifestyle, whether hiking, skiing or canoeing on one of our many trail systems. With the vast surrounding northern wilderness and thousands of lakes, you can camp, fish, ATV and snowmobile at your choice of a paradise." My paradise includes enjoying a campfire in my backyard.

While I appreciate that some have health concerns, I would suggest that they find alternative solutions to their issues. Even if campfires were to be restricted, there are a number of people that use wood-burning appliances as their home's heat source. These stoves produce the same kind of smoke as a campfire. Would the next step be to ban woodstoves? There are a number of people that have allergies or asthmatic-related issues. The trigger can be any number of scents and aromas including perfumes, hair spray and cigarette smoke. Trying to ban all of these things would be an inefficient use of Council's time.

I also appreciate that some don't follow the back yard burning rules and burn garbage. May I respectfully suggest that these people need to be approached and reminded about the proper burning rules.

When you are discussing this issue at any future council meetings, please consider my comments. Don't take away my right as a resident of Elliot Lake.

Further to the discussions at the recent Bylaw and Planning Committee meeting, I would like to support the continuance of campfires in residential backyards.

As you discuss this issue, please do not take away my right to spend time with family and friends in my backyard around a warm, glowing campfire. This is a long-standing family tradition to a number of the residents in Elliot Lake. Many newcomers to the City actually consider this one of the benefits of moving to a northern community that is essentially in the bush. On our City's website we proclaim "This is a city in which we get to enjoy living an active and healthy lifestyle, whether hiking, skiing or canoeing on one of our many trail systems. With the vast surrounding northern wilderness and thousands of lakes, you can camp, fish, ATV and snowmobile at your choice of a paradise." My paradise includes enjoying a campfire in my backyard.

While I appreciate that some have health concerns, I would suggest that they find alternative solutions to their issues. Even if campfires were to be restricted, there are a number of people that use wood-burning appliances as their home's heat source. These stoves produce the same kind of smoke as a campfire. Would the next step be to ban woodstoves? There are a number of people that have allergies or asthmatic-related issues. The trigger can be any number of scents and aromas including perfumes, hair spray and cigarette smoke. Trying to ban all of these things would be an inefficient use of Council's time.

I also appreciate that some don't follow the back yard burning rules and burn garbage. May I respectfully suggest that these people need to be approached and reminded about the proper burning rules.

When you are discussing this issue at any future council meetings, please consider my comments. Don't take away my right as a resident of Elliot Lake.

Re: Campfires in Residential Backyards

Further to the discussions at the recent Bylaw and Planning Committee meeting, I would like to support the continuance of campfires in residential backyards.

As you discuss this issue, please do not take away my right to spend time with family and friends in my backyard around a warm, glowing campfire. This is a long-standing family tradition to a number of the residents in Elliot Lake. Many newcomers to the City actually consider this one of the benefits of moving to a northern community that is essentially in the bush. On our City's website we proclaim "This is a city in which we get to enjoy living an active and healthy lifestyle, whether hiking, skiing or canoeing on one of our many trail systems. With the vast surrounding northern wilderness and thousands of lakes, you can camp, fish, ATV and snowmobile at your choice of a paradise." My paradise includes enjoying a campfire in my backyard.

While I appreciate that some have health concerns, I would suggest that they find alternative solutions to their issues. Even if campfires were to be restricted, there are a number of people that use wood-burning appliances as their home's heat source. These stoves produce the same kind of smoke as a campfire. Would the next step be to ban woodstoves? There are a number of people that have allergies or asthmatic-related issues. The trigger can be any number of scents and aromas including perfumes, hair spray and cigarette smoke. Trying to ban all of these things would be an inefficient use of Council's time.

I also appreciate that some don't follow the back yard burning rules and burn garbage. May I respectfully suggest that these people need to be approached and reminded about the proper burning rules.

When you are discussing this issue at any future council meetings, please consider my comments. Don't take away my right as a resident of Elliot Lake.

Re: Campfires in Residential Backyards

Further to the discussions at the recent Bylaw and Planning Committee meeting, I would like to support the continuance of campfires in residential backyards.

As you discuss this issue, please do not take away my right to spend time with family and friends in my backyard around a warm, glowing campfire. This is a long-standing family tradition to a number of the residents in Elliot Lake. Many newcomers to the City actually consider this one of the benefits of moving to a northern community that is essentially in the bush. On our City's website we proclaim "This is a city in which we get to enjoy living an active and healthy lifestyle, whether hiking, skiing or canoeing on one of our many trail systems. With the vast surrounding northern wilderness and thousands of lakes, you can camp, fish, ATV and snowmobile at your choice of a paradise." My paradise includes enjoying a campfire in my backyard.

While I appreciate that some have health concerns, I would suggest that they find alternative solutions to their issues. Even if campfires were to be restricted, there are a number of people that use wood-burning appliances as their home's heat source. These stoves produce the same kind of smoke as a campfire. Would the next step be to ban woodstoves? There are a number of people that have allergies or asthmatic-related issues. The trigger can be any number of scents and aromas including perfumes, hair spray and cigarette smoke. Trying to ban all of these things would be an inefficient use of Council's time.

I also appreciate that some don't follow the back yard burning rules and burn garbage. May I respectfully suggest that these people need to be approached and reminded about the proper burning rules.

When you are discussing this issue at any future council meetings, please consider my comments. Don't take away my right as a resident of Elliot Lake.

A Resident of the City of Elliot Lake

Tuesday, August 29, 2017

Dear Mayor and council members,

I, Thea Lockwood and my husband Al Lockwood wish to comment on the issue of backyard campfires. We reside at 63 Hergott Ave and have been residents of Elliot Lake for almost 2 years now. Our draw to this beautiful area was the "city in the bush environment". Where you could enjoy a camper's lifestyle, but have all the amenities of a small city.

As seniors, both my husband and I have breathing problems. I have suffered with asthma all my life. I am also a survivor of secondhand smoke. But, in saying all this, we thoroughly enjoy an evening fire. Medications in hand and sometimes a lot of moving from chair to chair to prevent the smoke from getting in our eyes. But we still have one! Bylaws are clear and the summer season is short. Memories are made around a campfire. We have the enjoyment of grandchildren and creating memories for them and us.

We are NOT a community where houses have been built so close together that we are able to touch our neighbour's hands through the bathroom window. Backyards are reasonably cleared, with enough space to have a contained fire without incident of affecting the surrounding environment. A wood burning fireplace is a major source of heat for homes here. The City of Elliot Lake, itself, has parks and a campground inside its boundaries which provide barbeques and fire pits.

There is always going to be "that neighbour" who will take advantage of making their fire a little bit bigger than they are supposed to or throw something on the fire that will release smoke not conducive to the environment or our health or have a fire for the sake of pissing their neighbor off.

Eliminating a backyard campfire is not the solution, but perhaps enforcing the bylaws already exciting may be a better one. Living in a city within a bush is a draw to increase population. And a backyard campfire is part of this lifestyle.

Respectfully,

Mrs. Thea Lockwood & Mr. Al Lockwood

Lesley Sprague

To: Lesley Sprague
Subject: Backyard Campfires

We understand that the City of Elliot Lake is entertaining the banning of backyard campfires. As lifelong residents of this community, we have always enjoyed evenings of sitting around a bonfire in the back yard with family and friends.

For the City to take away this privilege would be devastating to many citizens of this community. For whatever reason this matter has become an issue, I would hope that alternative options are considered.

For the record, the following five individuals are **AGAINST** the banning of backyard campfires:

William Landry

Alyssa Landry

Brian Carlson

Danielle Vincent

Denis Morisset

With Respect Mayor Don Marchello

We reside @ 66 Roman

and quite enjoy our

"backyard fires" they are

done safely, we purchase

our permit and we do this

late in the evening, on

one occasion our neighbour

^{2 doors down} said his wife wasn't feeling

well and had gone to bed

early, the smoke was

bothering her... so we doused

our fire and went in, it's

called respect for others

and a couple of bad

apples shouldn't have that

much power to ruin it for

Everyone! Please do not

permit this to happen ~~again~~

Mayor Dan..please do not vote in favor of banning backyard fires, these are enjoyed by my family very much. Our neighbors also enjoy this activity. Part of living in the North is being able to enjoy such activities. When friends gather at our house its so enjoyable to sit around a safe and controlled fire chatting and making memories.thank you for your consideration, Life long resident Cindy Pinard

Subject: backyard fire ban

In regard to council's discussion regarding backyard fires I feel very strongly that it would be a mistake to ban them. This would fly in the face of how our community has been promoted as a friendly, relaxed town with wonderful access to the outdoors. Whenever I have out of town guests they always look forward to a fire in my fire-pot in the back yard. The town has regulations concerning these fires, and if they are followed they are safe, inconspicuous pleasant and should not inconvenience neighbours. Those who choose not to adhere to the regulations should face the consequences rather than the entire community.

Subject: backyard camp fires

Dear Mayor Dan Marchisella ,

It is with great concern and disappointment that if any consideration to place a possible ban on backyard camp fires would even be considered. It has been a tradition for my family and way of life for the 60 years as a resident in this community. It is what I think of as part of living in the North and a small form of entertainment and recreation. I have never had any complaints from any of my neighbors regarding a camp fire or the small amount of smoke it may have created. Please STOP taking away another reason why we live in the north and Elliot Lake . Don't let the the fear of a few or the complaining of a few or the thoughts of a few control or change things for many. I see no justification for making me stop or extinguish for ever my small responsible back yard fire that offers a bit of the great outdoors activity that I have always enjoyed and will fight to continue enjoying.

Thank you , Jim Landry
