Re: Diagnostic Imaging facility at 1466 County Rd 13, Harrow, ON N0R 1G0

Dear Dr Abraham:

We recently became aware that you have a potential site for us to be the sole operators of an IHF diagnostic radiology clinic. We are interested in this opportunity *in this ideal and strategic location*, and would like to have further meetings with you to work out the details.

We are the premier radiology group in Windsor/Essex, and have 25 years of experience in this space. Our Radiologists have a variety of subspecialty training which would benefit the patient population in your area.

Our group would appreciate the opportunity to talk to you to see how our expertise and skills could contribute to your project.

Thank you for your time,

Dr. D. GILL, MD, FRCPC
Director, Lebro Management/ESR Clinics
