Ms. Amy Humphries Clerk, City of Woodstock P.O. Box 1539, 500 Dundas Street Woodstock, ON N4S 0A7 May 24, 2017

Dear Ms. Humphries:

Re: Request for rate change for residents located north of the Thames River in the City of Woodstock

At its March 23, 2017 meeting, Council considered correspondence from Mr. Albert Hargreaves and passed a resolution requesting that Hydro One change the rate classification for lands within the City limits, north of the Thames River, to the Urban classification. Hydro One Networks Inc. (Hydro One) has reviewed the resolution and would like to share further information about this subject.

Hydro One has standard residential customer rate classes which are approved by the Ontario Energy Board (OEB): High Density (UR), Medium Density (R1) and Low Density (R2). These rate classes are differentiated based on density of customers rather than municipal boundaries. If the density of customers is not uniform across a given municipality, residential customers in that municipality may fall under different customer classes.

As per the agreement governing the sale of the former Woodstock Hydro to Hydro One, customers' delivery rates are frozen until 2021 and a special rate class was approved by the OEB for customers who were formerly served by Woodstock Hydro/ Hydro One does not have the authority from the regulator to apply this special rate to other customers within the City of Woodstock who were not previously served by the former Woodstock Hydro.

As such, customers who live north of the Thames River within the City of Woodstock will continue to be classified as R1 based on their density.

I hope that this information is helpful in understanding the situation. If you have any further questions, please don't hesitate to contact me.

Yours truly,

Daniel Levitan

RE: Business Improvement Area – Special Area Charges

AIM

To obtain Council's approval of the Business Improvement Area (B.I.A.) estimates and special area tax rates for 2017.

BACKGROUND

Council approved the B.I.A. budget at the Council Meeting held on May 18, 2017. The Municipal Act requires that the B.I.A. estimates and special area tax rates be approved by by-law.

COMMENTS

The tax rates required to raise the levy have been calculated as follows:

Tax Class	Sub Class	Tax Rate
Commercial	Taxable	.00360494
Commercial	Vacant Land	.00252346
Industrial	Taxable	.00498527

The necessary by-law has been prepared and is included on this agenda for Council approval.

RECOMMENDATION

That the B.I.A. tax rates be approved and the necessary by-law passed.

Re: Future Aquatic Facilities

AIM

To provide council with an update on the status of future aquatic facility needs.

BACKGROUND

In April 2015, a Recreation Facility Needs Study was completed and presented to council. This report concluded that additional aquatic facilities were not needed in Woodstock given our population and our current aquatic usage numbers. The 2015 study did however recommend renewing and modifying the Southside Aquatic Centre and decommissioning Lions Pool once it has been deemed no longer structurally or operationally viable. Although this study did not recommend opening a new outdoor pool in Woodstock, it did suggest that if Council choose to accept the financial and operating risks of constructing a new outdoor pool, then the preferred location would be at Cowan Fields.

Lion's outdoor pool was built 71 years ago in 1946 and throughout its history it has had a few repairs and structural changes. The latest and largest repair of any financial note was in 2012 where there was a partial lining repair that cost \$20,000. This pool is well past any lifecycle norms and a variety of mechanical and structural breakdowns could occur any year. If Lions pool ongoing operation is warranted further investment in a new liner, trench piping and mechanical system upgrade will be required in the next few years.

COMMENTS

The recommendations and rational as to why either closing Lions Pool once it fails or closing it and replacing it with an outdoor pool at Cowan fields would have been forthcoming except for some very dramatic shifts in the usage patterns of Southside Aquatic Centre that has transpired after the recreational facility needs study was completed.

There are four driving data figures that are commonly used to determine if a pool is at or nearing community capacity. The first one is simply community population. Communities between 30,000- 45,000 are the provincial average to have one indoor pool. Communities that are between 45,000 to 60,000 could be considered for a second indoor aquatic facility if the community need is warranted. Given the tank size of Southside Aquatic Centre, Woodstock falls in the middle of a one to two aquatic facility community based on current and projected population grown patterns.

The data points that have changed significantly are weekly usage, operational hours and learn to swim capacity. The Recreation Facility Needs Study based their conclusions on data from 2014. The operational hours per week was 77 hours in 2014. The latest 2017 hourly pool usage has seen an increase up to 86.5 hours per week with plans this fall to move that to 88.5 hours per week based on increased community demand.

Overall aquatic facility usage is also an important data point. In 2014, the average weekly usage was 1,271 visits. Each year since this study has occurred, the weekly usage numbers have steadily increased. At the time of this report the usage numbers for 2017 stands at 1,644 visits per week.

Meeting the community's learn to swim needs is a major driver for developing aquatic facilities. The metrics that are used to determine capacity are lesson block densification and aquatic program usage numbers. The 2014 lesson data showed that lesson blocks were generally run by four swim instructors per hour and the total lesson revenue in 2014 came to \$191,000. In 2015, the last year Southside Aquatic Centre had a full uninterrupted learn to swim season, lessons were running with 11 instructors per hour with revenues of \$240,000 which represents a 25.6% increase. The aquatic registered participation revenues have also continued to increase in 2017 with the winter session producing the highest winter revenue numbers in the Aquatic Centre history.

These changes represent a significant shift in usage patterns and facility capacity since the 2014 study data was analyzed. If these trends continue, the need for a second indoor aquatic facility will arise or an addition to the existing one. Since this would involve considerable community investment further trending data is recommended. Woodstock's future aquatic needs are now tilting toward requiring additional water for all seasons. With further metrics council should have enough data to make an informed decision as to what the total aquatic inventory should be for the City of Woodstock. This means that both indoor and outdoor facility planning should be further analyzed to determine the future direction of aquatic facilities.

Lion's pool aquatic numbers have increased but less substantially than Southside Aquatic Centre. However, the increase in program usage since 2014 in both Lions pool and Southside Aquatic Centre has tipped the scales so that closing this outdoor pool without opening another pool would impact aquatic operations. In order to ensure best operational management of Lions pool a capital renewal process should be undertaken.

RECOMMENDATION

That City Council receive the report on Aquatic Facilities and direct that further data be collected to identify improvements to meet community needs, and further that

City Council refer capital improvements to keep Lion's Pool operational to the 2018-2022 Capital Budget.

Re: Recreational Swimming Fee in June

AIM

To ask council to approve a \$2.00 swim fee for the month of June for all recreational swims on Tuesday, Thursday and Friday evenings.

BACKGROUND

The current single user rates for recreational swims are \$2.75 for Youth (1-17), \$4.00 for Adults, and \$3.25 for Seniors (60+). The recreational swims in the month of June that are requested to be lowered to two dollars occur on Tuesday, Thursday and Friday evenings. There is a total of 12 recreational swims that are affected starting on Tuesday June 6 and running until Friday June 30th.

COMMENTS

This promotion comes during June which is Parks and Recreation month. Recreation and Parks Month is recognized by municipalities, community organizations, and schools as a way of promoting the benefits of being active and how recreation and parks contribute to quality of life.

RECOMMENDATION

That City Council approve a temporary fee reduction to \$2.00 for all ages recreational swimming on Tuesday, Thursday and Friday evenings in the month of June in recognition of Parks and Recreation month.

RE: Norwich Township - Boundary Adjustment Committee Report

AIM:

To approve the forwarding of a boundary adjustment proposal to Norwich Township Council.

BACKGROUND:

City Council received CASPO Report 2016-19 concerning Woodstock Employment Lands on May 5th, 2016. The report provides a high level overview of employment land needs in the City of Woodstock to inform further discussion regarding municipal boundary adjustments going forward. The report identifies the need to expand the shovel ready land supply and suggested that opportunities to expand servicing east from the Patullo Ridge Business Park should be explored.

Vacant employment land supply, shovel ready or not, is a concern in the City. The City's inventory of vacant employment land continues to decline as land sales continue to be strong. It is increasingly difficult to present sites of different size and configurations to purchasers. Given the long time frame to bring land to development it is essential that the City has a long term view such that it can maintain a broad inventory of employment land.

City Council approved an invitation to enter into a boundary adjustment discussion with Norwich Township and the establishment of a Boundary Adjustment Committee comprised of Mayor Birtch, Councillor Lauder and Councillor Shapton.

Township Council accepted the invitation and created a Committee comprised of Mayor Martin and Councillor Buchanan.

The Township and City Committees met on a number of occasions and has developed a boundary adjustment proposal for consideration of the respective Councils.

COMMENT:

A draft framework of a Boundary Adjustment Proposal is appended. The scope of the proposed boundary adjustment is approximately 1,480 acres. The subject lands are attractive for industrial and commercial investments given the proximity to Highways 401 and 403. The lands include some residential, commercial and industrial uses but is primarily agricultural. The inclusion of the south side of the Highway 2 corridor will allow for future servicing of both sides of this corridor with municipal sewer and water services.

The proposed terms are modeled, for the most part, on the 2005 Boundary Adjustment with the Township of Blandford-Blenheim. Base compensation in form of the Township own purpose tax revenue is continued in perpetuity and further joint prosperity compensation in the form of a sharing of taxes from new commercial and industrial assessment in perpetuity.

There is no additional joint prosperity compensation for the residential tax class. A tax phasein for current owners of properties in the residential and farmland property tax classes is proposed.

The Municipal Act requires public consultation by holding at least one public meeting and consultation with other such bodies as prescribed by the Minister or municipality before voting on whether to support or oppose a restructuring proposal. Accordingly the recommendation at this time is limited to forwarding the proposal to Township Council. If Township Council agrees to move forward with the boundary adjustment process, a public meeting will need to be scheduled. In this instance we request that Township Council select a date to hold a joint public meeting for this proposal and will work with Township Staff to coordinate the meeting.

RECOMMENDATION:

That City Council approves the forwarding of the draft Boundary Adjustment Proposal to the Township of Norwich Council for their consideration and, if acceptable in principle, requests that the Township schedule the statutory public meeting.

Norwich Township - Boundary Adjustment Proposal

Proposed Lands Subject to a Boundary Adjustment

Approximate 1,480 acres

Proposed Effective Date

January 1, 2018

Compensation

Ongoing Base Compensation – In perpetuity

The City proposes to pay to the Township annually the total amount of the Township own purpose taxes levied by the Township in the year prior to the effective date of a boundary adjustment (assumes a January 1 effective date) for the proposed lands. Beginning in 2019 and for each subsequent year, the total amount payable shall be adjusted annually on January 1 by the percentage change during the previous 12 months (October to October) in the Canada Consumer Price Index.

• Joint Prosperity – In Perpetuity

The City proposes to pay to the Township annually the following share of the City's own purpose taxes for increases (post boundary adjustment) in assessment on each property for the commercial and industrial tax classes:

Commercial tax class: 20% of the City's share of the Woodstock tax rate levied in each year. Industrial tax class: 12% of the City's share of the Woodstock tax rate for the first \$50 million of industrial assessment in aggregate on the annexed lands and 24% for any industrial assessment in

excess of \$50 million in aggregate on the annexed lands. Notwithstanding the forgoing, the City shall pay to the Township 24% of the City's share of the Woodstock tax rate for all new assessment in the industrial tax class (since the effective date of annexation) commencing five years from the effective date of annexation.

Tax Phase-In

Commencing January 1, 2018 Residential and Farmland property classes within the area to be annexed which would receive an increase in taxes occurring solely as a result of this restructuring will be phased in for the City portion of the real property tax bill equally over a period of five years. In 2018 all other tax classes will pay the full amount of the real property taxes assessed for municipal purposes by the City. Phase-in provisions will cease to apply to property that is sold or redeveloped subsequent to the effective date of the boundary adjustment.

It is increasingly difficult to present sites of different size and configurations to purchasers. Given the long time frame to bring land to development it is essential that the City has a long term view such that it can maintain a broad inventory of employment land.

City Council approved an invitation to enter into a boundary adjustment discussion with Norwich Township and the establishment of a Boundary Adjustment Committee comprised of Mayor Birtch, Councillor Lauder and Councillor Shapton. Township Council accepted the invitation and created a Committee comprised of Mayor Martin and Councillor Buchanan.

The joint Township and City Committees met on 5 occasions. The City Committee met on 4 other occasions in order to develop and amend proposals. The first joint meeting was held on June 22, 2016 at which time the Township agreed to prepare an initial proposal for land and compensation. The Township presented a concept that would result in the designation of lands in the vicinity of Highways 401/403 as a settlement area, some of which would be retained within the Township boundary so that the Township could develop these lands. The City Committee indicated that the concept would not be considered by the City and agreed to prepare a new proposal for consideration. The City's initial proposal then comprised approximately 2,500 acres of land along with various compensation, including an annual payment to the Township of the share of the City's own purpose taxes for commercial and industrial tax classes for new assessment post boundary adjustment as follows:

Property with an assessed value greater than \$100 million – 24% Property with an assessed value between \$50 and \$100 million – 18% Property with an assessed value between \$10 and \$50 million – 14% Property with an assessed value less than \$10 million – 0%

This proposal was not acceptable to the Norwich Committee.

On March 24, the Norwich and Woodstock Committees met and reached agreement on a proposal that could be recommended to the respective Councils. This proposal comprises approximately 1,500 acres of land along with various compensation, including an annual payment to the Township of the share of the City's own purpose taxes for commercial and industrial tax classes for new assessment post boundary adjustment as follows:

Commercial Tax Class: 20%

Industrial Tax Class: 12% for the first \$50 million in taxable assessment for the first five years and 24% for any taxable assessment exceeding \$50 million, and 24% for all industrial tax class assessment after the five year period.

Other Tax Classes: 0%

On April 3rd the content of the agreement reached on March 24th was sent to the Township of Norwich. On April 3rd Norwich responded questioning whether indexing for base compensation was part of the agreement. On April 6th Norwich was advised that indexing for base compensation was not included with the agreement reached on March 24th. On April 12th a draft amending agreement was provided to Norwich including indexing for the residential tax class only (as no further compensation is included for this tax class). Norwich responded on April 12th indicating that their position is that indexing is required for all base compensation. On April 13th Woodstock requested a further meeting with the Norwich Committee to discuss this issue. The meeting was held on May 2nd with Norwich affirming that it would not recommend the boundary adjustment without the inclusion of indexing using the Canada Consumer Price Index for base compensation.

A draft framework of the Boundary Adjustment Proposal following the May 2, 2017 meeting is appended.

COMMENT:

The scope of the proposed boundary adjustment is approximately 1,480 acres. The subject lands are attractive for industrial and commercial investments given the proximity to Highways 401 and 403. The lands include some residential, commercial and industrial uses but is primarily agricultural. The inclusion of the south side of the Highway 2 corridor will allow for future servicing of both sides of this corridor with municipal sewer and water services.

There is no additional joint prosperity compensation for the residential tax class. A tax phase-in for current owners of properties in the residential and farmland property tax classes is proposed. Unlike previous boundary adjustment agreements, no financial contribution for the cost of the assumption of assets has been included.

The Municipal Act requires public consultation by holding at least one public meeting and consultation with other such bodies as prescribed by the Minister or municipality before voting on whether to support or oppose a restructuring proposal. Accordingly the recommendation at this time is limited to forwarding the proposal to Township Council. If Township Council

agrees to move forward with the boundary adjustment process, a public meeting will need to be scheduled. In this instance we request that Township Council select a date to hold a joint public meeting for this proposal and will work with Township Staff to coordinate the meeting.

CITY OF WOODSTOCK

BY-LAW NO. 9137-17

A by-law to approve the estimates for the Board of Management for the Business Improvement Area for the fiscal year ending December 31, 2017; to provide for the adoption of special tax rates and to further provide for penalty and interest in default of payment thereof for 2017.

WHEREAS Section 205 of the Municipal Act, S.O. 2001, as amended, provides that a Council of a local municipality shall approve the estimates of all sums required during the year for the purposes of the Board of Management for Business Improvement Areas,

WHEREAS Section 208 of the said Act provides that the Council of a local municipality shall annually raise the amount required for the purposes of the board of management and may establish a special charge to raise the funds required,

WHEREAS Section 312 (4) provides that the municipality shall pass a by-law to levy a separate tax rate on all or part of the assessment in each class as specified in the by-law,

NOW THEREFORE the Council of The Corporation of the City of Woodstock, (hereinafter called the "Corporation"), enacts as follows:

- (1) That the 2017 levy for Business Improvement Area be set at \$188,115.
- (2) That the Estimates as shown in Schedule "A" attached hereto and forming part of this by-law are hereby approved for the Board of Management of the Business Improvement Area for the fiscal year ending December 31, 2017.
- (3) That the special tax rates for the area that are hereby adopted for the year 2017 for the purposes mentioned in Schedule "A" of the by-law shall be the tax rates as listed on Schedule "B" attached hereto and forming part of this by-law and the tax rate for each class shall be applied against the commercial and industrial assessments of properties in the designated improvement area as described in Schedule "C" attached hereto.
- (4) That the owners shall be taxed according to the tax rates in this by-law. The taxes for a particular property shall be calculated by applying the Current Value Assessment times the tax rates set out and shall be further adjusted as required by the provisions of the Municipal Act. Such taxes shall become due and payable in two installments as follows:

All Property Classes

FIRST INSTALMENT

AUGUST 31, 2017

SECOND INSTALMENT

OCTOBER 31, 2017

Notice of such taxes due shall be sent by first class mail by the Treasurer to those persons shown as liable for the payment of taxes.

- (5) That a charge as a penalty of 1 and 1/4 per cent on the amount of any outstanding taxes levied in 2017 shall be made on the first day of default and on the first day of each calendar month thereafter in which default continues until December 31, 2017, and any such additional amounts shall be levied and collected in the same manner as if they had been originally imposed with and formed part of the taxes levied under this by-law.
- (6) That interest of 1 and 1/4 per cent on the amount of any taxes due and unpaid after December 31, 2017, shall be charged on the first day of each calendar month thereafter in which default continues.

This by-law shall come into effect on the date of the final passing thereof.

Read a first and second time this 1st day of June 2017.

Read a third time and finally passed this 1st day of June 2017.
